

SDLC Task-1

NAME - T. Ayush Raj
REG. N - 2141018011
BRANCH - CSE

Objective: Create a simple use-case diagram for a Library Management System.

A Library Management system is a software that helps manage the daily activities in a library, like issuing books and managing members.

There are two main actors in this system.

- Librarian - manages book check-out.
- Member - borrows and returns book.

Main use cases include:

- check out Book - Done by both Librarian and member.
- Return Book - Performed by the member.
